Time for our state to get with the times and join the rest of the nation in the 21st century. Please release any information about any intention to include a ferry terminal. No stadium - it would be a complete waste of this site and a memorial to the failure of vision by those responsible. How ridiculous to build a structure in such a location where people sit inside not looking out at the river and the city. Don't let labour and the greens have a say in ruining a future for all younger tasmanians. A mulitpurpose stadium would be a magnificant addition to Hobart and Tasmania. Just do it. Yeah think big. Stop thinking about what's wrong and sell tasmania. People want it but you don't try. Please build stadium. In this will be one of the best stadium sites in the world. So get the transport to it right so that those Tasmanians that will be required to stay over night because it is in Hobart can come from park and stay areas that fit a range of accommodation.

What conference centre It would be inappropriate in this space National conferences	cars at home or parked out of the city then use public transport All of the above but note I don't support a multipurpose stadium- only open space with small amphitheater/stage and use the open space area for seating (byo picnic blankets & seating etc) Once again, it is not where a stadium should be located no stadium PARKING and availability of public transport	No s radio on / open space with shops/cafes in a few areas - be mindful of all weather events etc As above no stadium Preferably no stadium, but if we are to be burdened with one, then outside Don't want unnecessary businesses All stadiums have fast food outlets in concrete fortresses. They offer nothing to the surrounding communities only the patrons watching the games I have been to all of the Australian major stadiums and they are well planned. No shoved in a limited space that already has an approved proposal Outside, accessible all the time regardless of events being held. Inside should have quick food delivery. Both	Please do not push for Tassie to go into debt for one code of male sport ie the stadium - MP needs to be a public space - open space with all of my above/previous questions suggestion's to take into consideration- thank you for consulting Yes - that this is not the appropriate place for a stadium Hoba has very few facilities for youth and family recreation & education for winter months. This is a appropriate central location Please don't waste it by catering to the AFL. It's shameful no stadium. This is a beautiful spot where we need the minimum or buildings, to maximise the view down the river. I don't think housing is appropriate. Any unnecessary buildings only block the view of the river for the majority of Hobart people. I feel really sad that there seems to be an emphasis on more buildings rather than fewer. The stadium idea is an unmitigate disaster in my view. Forget about the stadium and finish the existing plan. Not all high end cales/restaurants, locker space in an area awe from the stadium, allow families to have their own food outsid and store their belongings before entering. Far enough away that it will not be a security issue. An area for new years eave Celerbrations. No football stadium. I don't think it's appropriate the Tasmanian government be held hostage by the AFL. Who put them in charge. And how come Tasmania has to create an expensive football stadium. What about the one in the North of the State. expand and modernise that one. Don't mind the idea of a team though. NO STADIUM. Having lived close to CBD Mac point has not been somewhere.

Why is it assumed in this survey that a Stadium should be a component of Macquarie Point? There are enough Sporting Facilities in Hobart and beyond. Build the stadium, for the future. I do not think a stadium is necessary at all. I thin an extension of the botanical garden and natural environment would help readdress the imbalance in nature. Forward thinking strategic planning for the environmental pressures that are here/coming. Would really like to see the people in positions of authority to familiarise themselves with the impending crisis.

305	05-Jun-23	3 Marion	Jones	Don't make a big huge eyesore like a stadium on the site that will overshadow any other development made there Tasmania is not the mainland, there is a reason why we aren't a high rise city We have kept our traditional, friendly, uniquely Tasmanian feel by not giving in to big corporations trying to make us something we are not	I don't want the multipurpose stadium at the point, upgrade the existing stadium! We already have facilities for other events such as entertainment, arts, sports and festivals Big name artists and teams have never and will never find it economically viable to hold events in Tasmania and the local artists and teams would not be able to afford renting the proposed stadium for their event! The stadium will be left empty for the majority of the year	Cultural and hobby conventions Cultural teaching events but we have conference centres already why would we need another?	A lot of food facilities, a lot of security facilities, spaces where anyone who has sensory issues can access in order to retreat from over stimulation Disabled access, parking, bathroom facilities, enough space for thousand of people to cue and congregate before the stadium opens All of which will cause the cost of building such a stadium to sky rocket in both monetary terms and space terms The sheer number of people attending the area all at once in a part of our city that comes directly off of an arterial road, that's used as a gate way to our CBD, will cause major congestion issues for our already failing transport and road traffic system	I shall say again, I don't want a stadium at the point! Also if food and business are only inside the stadium than it is a major waste of space, time and money, as those businesses will not be publicly accessible for the majority of the year Note would it be economically viable for those businesses to survive inside a stadium that won't be used for the majority of the year not to mention the astronomical cost of renting a space inside or out of the stadium for these businesses to reside Should the businesses be outside of the stadium the area left for residential and the reconciliation park would undoubtedly shrink Making this stadium with business inside or out unviable	I would like you to consider young and future generations of Tasmanians and the massive financial burden that will be placed on their shoulders because our state is being blackmailed into paying for this stadium in order to get a state team! A gigantic building that will sit idle for the majority of the year, that will put great financial stress on our people, will put massive infrastructure stress on a state that is not equipped to handle large influxes of people and will be a massive, out of place eyesore amounts our historical aesthetic. It undoubtedly the worst thing to build. Especially right now, when we are still reeling from the pandemic, are likely to experience a recession and are in a housing crisis! You want a stadium! Build it when we aren't experiencing economic devastation! Build it when our people are housed, fed and healthy! Build it when we aren't experiencing crises left right and centre! It is not a necessary building right now and should not be a priority! That is what you should consider

Music concerts we are desperately keen for and don't get	Unlimited The attraction would only grow for hire if linked to a unique facility such as a stadium Indoor and outdoor	Hospitality, ablutions, public transport point/hub	It depends on the business Great to showcase Tassie only businesses inside and outside while any multinationals or such could be outside	functionality that would open so many doors to locals for jobs, tourism for dollars The state's income would only benefit from such

311	05-Jun-23	2 Charles	Poss	A unique design of the outer shell with Tasmanian materials such as timber, and that can be lit up for events such as New Years/fireworks events etc Ideally it could be adapted for major events like Dark Mofo for events inside the stadium as well is in/around it I think certainly something creative on the cenotaph side of the stadium to appropriately recognise our war veterans and that would add rather than diminish from the experience of visiting the cenotaph	Should be something for all ages - tour of Sports Museum, interactive cricket/AFL games for kids, Escape Room, restaurants and bars, outdoor park areas -	Mostly business conferences, but an opportunity would likely exist for UTAS conferences and functions	Open parks have tailets	Outside of the stadium so more visible and accessible to people walking by	significant shortage of sporting grounds in Tasmania, and in particular junior AFL and soccer. If participation is set to boom, I think it would be an amazing way to utilise the asset and providing community use, whilst also ensuring that it remains in pristine condition for elite sport matches. I'd imagine junior sport would not do too much damage to the surface. There would also be opportunities to use for junior cricket clubs with the roll-out FlicX wickets. Whilst I am not really involved anymore, UTAS Sport would be the first sporting organisation. I'd suggest speaking to to support their many clubs as either a home/second ground to see if it aligns with their Sport strategy and move into the CBD.

It would be socially and economically irresponsible to construct such an expensive and unnecessary structure when we have a burgeoning, uncontrolled, medical and housing crisis. I am also appalled by the way the AFL head appears to be able to dictate to our incompetent politicians how and where Tasmanian taxpayers funds are to be spent. To suggest that an area of land which must potentially be the most valuable in Tasmania be used to build a giant stadium, denying its use for any other more useful and acceptable purpose beggars belief. We do not need a football stadium; we do need hospitals, doctors and housing for the less privileged. A stadium will bankrupt Hobartians and Tasmanians generally for decades to come and the debts which it will incur will prevent any future necessary infrastructure from being developed. I am a dedicated AFL supporter with my own team. I would love to see a Tasmanian team enter the competition, but not at the expense of the health and well-being of fellow Tasmanians. We have two football stadiums, which could both be renovated and extended to accommodate the relatively small numbers of supporters who would attend games over the next few years given the population of Tasmania. 									an attempt to justify this extravagant use of taxpayer \$ the
									Rockliff Government and the AFL (and others who have also
									been drinking the Kool-aid) make the most outrageous and
									exaggerated claims about broader economic benefits and flow
									on effects to Hobart and Tasmania However, this is all smoke
									and mirrors The government's economic analysis is centred
									around projected GROSS economic impacts (as is all pro-
									stadium material published around the world which confuses
									gross and net economic effects), which is incredibly misleading
									The potential economic benefits of new stadiums to the host
									city has been studied to death and was settled well over a

									I'd like to see a full totally independent assessment of exactly the full cost of this eyesore and a breakdown of the projected losses, debts and deficits for 20 years if/after it is built. 390	06-Jun	-23 Gavin	Miller	The Derwent River setting is uniquely Tasmanian The setting can ensure there is real visual and walking access to the view It can interpret the botanical and maritime values of our island	I wouldn't be interested in football in the CBD at the expense of the charm of the waterway A multipurpose football stadium in the middle of Hobart would not appeal to our values and interests and we probably wouldn't go there at all	I can't think of anything that isn't already catered for Hotel Grand Chancellor has excellent facilities, as does Wrest Point There are many others as well	Obviously parking There is a lack of parking for events such as the Wooden Boat Festival now, but parking at the Regatta Grounds wouldn't help at all Having yet more of Hobart's better locale's given over to often empty car parking is a step backwards	I would not welcome more commercial emphasis in the area. It sounds like these businesses are just a part of the stadium promotion - yet they aren't needed	I would like to see the commercial nature of modern sport and the AFL made clear. The AFL is producing one negative outcome after another - racism, gambling, long term injury and now degradation and impoverishment of a beautiful and unique city. It seems that a stadium would do a lot to promote the idea that sport is fine and AFL football is the best of it - at the expense of the better past and future of Hobart.

Transport hub, quick access for large crowds, shops for food, areas for the sale of promotional items, space for large trucks that have equipment for entertainers, food trucks, buses for players etc. All eyesores	Reality is that in other places there have been both with promotional stores inside and outside stadiums. Alcohol and food outlets inside and outside stadiums. These are inevitable if you want to attract big events. More traffic congestion that the area cannot cope with. All an eyesore	stadium to the throughway for ambulances, fire engines and police cars. It is situated too close to the hospital and the traffic can block these emergency vehicles, which could lead to the death of a person, the loss of property through a fire. I do not see how a traffic jam can be avoided due to the lack of public transport and the ability of being able to move a large crowd. We do not have the infrastructure of moving a large number of people (50,000 plus) like Melbourne. Even with the infrastructure that Melbourne has we found that it was quicker to walk than take a tram

NONE! There are places that are already available in Hobart DEC for example, space for a afl stadium there the racecourse and Dec could be resisted much cheaper to utilise parking for the new stadium, the DEC is under-utilised Bellerive oval sure parking is an issue there I used to live very close. The noise when cricket was on was bad enough football music concerts arrigh!	there are so many conference centres in Hobart and I bet a lot of these are not being utilised to full capacity. The Dec for example So lets take even more business away from the already not fully utilised businesses and build another really wonderful for helping tasmanian businesses and families. Hobart has conference centres which are small scale and attractive I have been at the melbourne conference centre and it is a souless, largely empty barn of a building where it is necessary to walk large distances.	carpark that cost the earth to recap some of the costs there bye limiting free and affordable access to the 'precinct' for Tasmanian families and individuals. Police booth to keep an eye on unruly behaviour and alcohol and drugs as this is also a residential precinct and family friendly precinct. Bus terminus rubbish bins, or recycling or rubbish clean up crews to pick up all the shit that will be tossed on the street and clean up vomit from concert goers who have drunk too much. Oh and a first aid station for those who might have a brawl post footy match, concert, or those who have OD on drugs. Oh and safe place for females/women/young women to be able to go when potentially groups of males might harass them post football games or concerts. Maybe also escalators and lifts for people to move out of the stadium to carpark more easily. Disabled parking at the stadium more than just one or two token ones. Not joking seen all of this happen. Graffiti removals space. As there will be heaps and you would not want tourists to see that. Lots of security will that be inside only of the stadium or on the streets too? Some post game concert, may want food so a food van	Yes lets add more competition to many already struggling businesses within the waterfront and Hobart City Personally I would rather eat away from this potential shade causing structure and potential wind tunnel NO stadium should be built at this location nor a massive carpark just in case maximum capacity is reached 4 times a year So inside a stadium so Tasmanians who do not support this stadium DO NOT get hit with the high rates charged by the businesses which in my personal experience I have experienced first hand at stadiums on mainland and Over seas as rents are usually massive so costs for businesses to make a profit need to be higher charges Again not really going to be aimed at lower income families living in the precinct but I guess plenty of others with money to spare	That the STADIUM is NOT BUILT on this prime land and impinges the views and creates potentially massive traffic issues in an already problematic location. In there has to be a stadium build it somewhere eise. The height and bulk should be taken into account and be in scale with the scale of Hobart. Consider going beneath ground if out of scale height is required and planting the roof with a garden to disguise the bulk of the building. It could be built to continue the grassland from the cenotaph with a stadium beneath and the overall height and bulk disguised beneath a hill and underground.

506	15-Jun-23	Gunnar	Martschinke	INO TOODAII STAUTUM, GENUME CONSULTATION WITH					Kind regards,
									I can't answer most of the questions because I don't have any answers, but like the vast majority of Tasmanians I do not want a new Stadium built anywhere in our state at this time. The state government had an inquiry into what the community thought about the Stadium. They received a record number of submissions and that is how I know that most of the people are against what is proposed. I spent an hour on my submission which turned out to be a waste of time. This will be the last time that I bother to write to politicians about anything.

Consider getting some more creatives onto your Board - some board members are not trusted in Tasmania due to such projects as the cable car This is your chance to build on the wonderful work the MONA team has done to bring new architecture and different audience to Tasmania The design of the stadium itself has the potential to make Mac

496	12-Jun-23		Daly	of things I would like to see at Mac Point The idea that AFL matches or loud pop/rock concerts could be seen as "uniquely Tasmanian" is laughable You can't put lipstick on a pig (I am	unsuitable It would ruin Hobart ram not a supporter or the mu thou pose statutum I think Mac Point is not the right place Transport is too problematical for huge crowds of people I strongly doubt I would be attending any events if it were to go ahead I am not a fan of spectator sport, large crowds of people or loud pop concerts I realise that a lot of people like these things, but I wouldn't be among them I wouldn't have been a participant at any time of my life	Everything about this site makes its use for large gatherings questionable However, it would be good to see affordable meeting places for community-run events such as lectures and workshops	A stadium would not be suitable in this space Transport, transport, transport	would ruin Hobart's unique waterfront Mostly outside People shouldn't have to go into the stadium to access these There should be no stadium at Mac Point	Tasmania cannot afford or need a stadium The proposed stadium is monstrous. It will be ugly no matter how you dress it up. Stadiums are designed for a specific purpose and have to be designed to fulfill that purpose. The stadium will overshadow the Cenotaph like a giant toilet seat. It is disrespectful to put it in this space. We need to have some stunning architecture in Hobart, but the stadium wouldn't fill that brief in any way.
495		Catherine	Nicholson	We already do that well We are a small regional city We are not in Sydney and will always struggle to get large acts and shows to come to Tassie because of costs of getting here. Look at Townsville It is struggling to get its stadium used for more than just sporting events. Good well designed buildings with plenty of easily accessible public space and allowing the existing size and scale of the Hobart port area to continue around in to Mac Point. Mac1 is a good example of a building that complements the existing character and area of Hobart. Not a huge overbearing chocolate box shaped stadium as seems to be what is being suggested, with some token public open space and park area as a sop to those disappointed by the loss of a genuine reconciliation park.	I dont want a stadium on this space It will overwhelm it and destroy the character of the area and the potential for a more human scale and appropriate buildings I would hate to see a stadium built in this area, totally	Lots but not on this space Conference centres also need lots of parking usually and that is not possible here Out near the old DEC would be a much better location and have better transport linkages from all parts of the state and space for parking	Lots of parking - not possible on this site Good public transport access - possible	Outside, but I dont want a stadium here at all I would hate to see a concrete stadium at Mac Point, it	I find your questions are totally slanted to assuming a stadium is what is wanted here. I thought this survey was supposed to be more open and was canvassing opinions about the stadium or not and how the site should be used. These questions are biased and the answers will give the impression that everybody who answers them is ok with a stadium, because it does not ask if you want a stadium on this site or not. The whole process is an abuse of the existing planning systems and process and the work already done and approved for this site.

									I visited this webpage hoping to see some definite plans and
									options that would help me understand how the different potential elements of the MP development might relate to one
									another, especially considering that the dominant feature will
									be a stadium that in any of the graphics I have seen completely
									dominates the area and leaves very little space for anything
									else Unfortunately, I can't see anything informative or useful in the 'Precinct Plan' The list of proposed elements is very long:
									not only the stadium, but the Antarctic Science precinct, the
									reconciliation park, affordable housing, plus all the transport
									infrastructure that will be needed and the shops, cafes etc - and
									I would dearly love to imagine there could be some beautiful
									public green space as well. The idea that all of this can be jammed in round the edges of the stadium just seems fanciful
									to me I feel instead that the actual result will either be a
									chaotic jumble of half-baked projects or a kind of urban
									wasteland loomed over by a monolithic stadium. The evidence

We have enough facilities here already & I have attended national conferences all over Australia including at Wrest point here	You're asking the same question as previously, WE DO NOT NEED A STADIUM & TASMANIA DOES NOT HAVE THE POPULATION TO SUPPORT IT! Add on the cost of transportation to bring big events to Tas & it's not viable & never will be!	No Stadium but still lots of these spaces could be added to the precinct	I think the politicians need to listen to the people & the legislative council to find out what the majority of Tasmanians really want & take note of peoples writing on social media sites & journalism Maybe it should be put to a referendum! I'd like to see the detail of the deal Jeremy Rockliff signed with the AFL without showing it to Cabinet I'd like to see the business case for the stadium to support the claims that 44

894	16-Jul-23 Chris	Jones	It's about Tasmanian people not small groups Indigenous people are Tasmanian We don't wand affordable housing because its for all Tasmania We don't want it for the rich in high rise	Footy games male and female Top artist that can perform under cover like other states There are many different types of entertainment Do not want a stadium - a waste of a magnificent site		We need a certain amount of parking and parking on the regatta grounds	Outside on a daily basis but spaces inside for football sales Artist sales etc	cricket, rugby union and international entertainers I would the stadium to be a little bigger so we can have more seats You will be surprised at the amount of people that will attend and you need to get it right first time and not have add ons later It's for Tasmanian people to enjoy It's not for the Indigenous people or the Government to win votes It's for the Tasmanian People
895	16-Jul-23 Carmel	Denholm		Plus inappropriate location for parking etc				
896	16-Jul-23 Carmel	Denholm		Do not want stadium - waste and desocration of a magnificent location				
897	17-Jul-23 J	Michel	I don't feel Tasmania needs to showcase itself It it is a small liveable city which is continually trying to compete with bigger city for some reason. Our small scale, low rise skyline and more relaxed approach to life already "showcase" us I'm sick of businesses trying to create the same models and profit margins here and latching on to that as the only measure of our success. Having a Docklands style development at MacPoint will be uniquely un-Tasmanian, and so would the possible attendant loss of cornelian bay to AFL manipulation and some leaders' desire to establish a legacy regardless of cost.	I don't want one Note do I believe they are successful multipurpose venues They host sports, concerts and other events on their fields Attaching restaurants and theatres to them does not make them more	I think it offers competition in a market that I don't believe is crying out for more venues Nor do I think a conference center is something locals would utilise Which is which conference centres are often near airports and rail hubs since they cater to visitors	Primarily a stadium of that size will need parking So much so that there won't be spake for anything else	Obviously unless these are catering to stadium goers, they must be accessible on the outside at least	I would like you to consider the impact to those who call this island home and not an exploitable resource AFL is great, but we have been manipulated and duped by the AFL This stadium will not unite us A stadium like this has no place there, it is completely out of scale with the rest of the city and will be an eyesore and a money pit Launceston's Aurora stadium is a much better spot, with better existing infrastructure Hobartians would travel up north to see games Putting the stadium in Hobart seems a cynical ploy to win votes for the Liberals by appealing to our love of footy rather than looking at the best options
			Use and showcase Tasmanian products in design		,	Multiple accessible active transport connections from all directions Bus terminal Ferry terminal Some	I think both inside and outside, with a focus on outside venues that operate and generate foot traffic even when

900	18-Jul-23 Mark 19-Jul-23 Helen	Duffett Quilty	AFL team Please read my comments above ie create a unique Mount Wellington/ environmental centre	AFL football, T20 cricket, concerts, pub choir a central focus of stadium with small attached businesses around the circumference would not work These businesses would only make profits when a stadium event was on They would not survive	Conferences? Previous comments apply here	A multipurpose stadium would not be viable commercially long term Only when the stadium venue is open	Unviable as on -going commercial ventures only operable when a stadium in use Please see my previous comments about a Mt Wellington centre	I am sick of big money d organisations Trying to force on the general public their ideas without consultation and transparency. The general public are not all footy fans Football is only a game, it does not sustain civilisations nor does it appeal to all. We don't want the dept the stadium will force on the community.
901	19-Jul-23 Mickey	Benefiel	NOTI	NO STADIUM> HORRIBLE WASTE OF MONEY> TOTALLY INAPPROPRIATE LOCATION>		LOTS OF PARKING AND EASY TO MANAGE TRAFFIC>	NONE OF THEM WILL BE OF ANY USE TO THE GENERAL PUBLIC> THIS IS A MONSTER SCAM DESIGNED TO MAKE SOME INDIVIDUALS WEALTHY!!!	A NEW GOVERNMENT THAT MAKES COMMON SENSE THE PRIORITY

The other thing that makes Tasmania unique is the fresh air scenery and wild life so do thing themed that way. The materials used, the stories told, a place for Tasmanian arts to be shared. By not building a stadium we can't afford. Embrace Tasmanian products, incorporate the view of the Derwent. Using Tasmanian woods and selling Tasmanian products e g Tasmanian Gin, wines etc at the restaurants. Make it ours. Make it an area we are proud of. Draw on all elements of Tasmanian Try and make it as inclusive for all Tasmanians something all will be proud of to take friends or interatate visitors to the produce of	and rod laver arena plenty of good examples Exposes, concerts, comicon etc None A stadium should not be considered at this sight or any other site at this time NO STADIUM AFL, NRL, all sports, concerts Hockey, soccer any field events and of course AFL games Irish dancing, concerts and musicals Maybe even some inter school sports See above Concerts a league games afl State of origin opener Afl, concerts, rugby, Afl, nbl, nrl, concerts, festivals Concerts, sporting events, expos Concerts, performances, sports	A boutique space for small scale gatherings may be appropriate, but not as part of a multi purpose stadium None What a joke Seminars maybe travel shows and maybe movies Art exhibitions, large conferences for professionals (so many of our health professionals go interstate and overseas for professional development - bring them here)! Birthday, sports awards and the like Mueseum tours, bungee jumps, roof top tours with views of harbour/city Plenty of business meetings and awards nights Large business events and national and international conferences across a range of industries National conventions Anything! Sci fi or comic con entions, business, events,	great legroom between rows of seats. Near by as mentioned before in previous questions. Not required as a stadium should not be considered on this site or any other site at this time. Houses for homeless. Dining, bars, accommodation. Certainly restaurants and maybe a terminus for buses. Hotel would be good. Green grassy area, plenty of undercover area, outdoor screens for sporting events. Food, merch and the like. Good parking, make it inclusive for all tassie,. Accommodation and good public transport. As well as great parking options. I also hope the ferry service will be running. Restaurants, bars, electrical/sustainable transport. Toilets, infrastructure to support transport, exercise spaces, toilets, cafe, bar	inside only Ideally both if it doesn't take away space from other functions outside the stadium A cafe, shops, restaurants etc may be appropriate but not as part of a stadium Neither! Both, but majority outside - make it a precinct not just a stadium Both could be inside and some maybe outside depending on design and size See above Similar to above Outside mainly with may a bar or 2 on the inside A mix of inside And out Both for sure	New stadiums and not to standards of stadiums that have been around 100 years and been maintained over time. Ensure that thwre is good mobile reception I the area to cater for 30k people. No stadium at this site or any other site at this time. Bring back the proper master plan and don't ruin the site with a white elephant we can't afford. N/A Please get it done! Let's go build it for the future!!! Lots of positive information and great designs to be spread around for all too see. There should not be this Aboriginal "truth" park Tasmania is a white British state. Make it attractive, pedestrian friendly and active across all hours. Build the stadium! The boost to the Tasmanian economy would be significant. Get some designs out there, include the public voice, consult with the youth - students have incredible ideas and are the future of the State. Involve them in the planning. Please make it world class and beautiful. Make the building itself world class in design and function so the haters can't.

1011	01-Aug	g-23 Rosie	Saville	By having all things that are uniquely Tasmanian in the area Everything sold and showcased there should be Tasmanian	A range of sport and concerts	Fitness activities for conferences plus water sport activities kayaking etc. a roof walk to take in the city sights and surrounds, absailing	Parking access to the city and surrounding areas	Both	Maybe a stadium to city, Newtown, Sandy bay tram as a pipe dream to outer parking areas to reduce city congestion

I don't see the need for social housing - or housing of any sort - people on benefits like to be in the suburbs where there are facilities and family nearby - or are you considering having playgrounds and schools on the site? How much room would you need to allocate for those? And no McMansions for the rich - just lots of public open space And no hotels!

				my opinion a gem of a location if you google failed stadium the very first result is a list of 10 satins built in the uk which are labeled unsuccessful and they are built in the uk in cities with far more population than Australia! I think we need to take a step back and think again what can we do that makes an unmissable Tasmanian experience? an aquarium? public heated pool/artificial beach? some sort of ride/attraction? a quick google suggests that tourist attractions boil down to three major factors attraction, amenities and accessibility two of those we can easily control and Australia generally preforms well in the latter two but we can always do better attraction is the question no one has the right answer but I think a good hard look at other cities and what works is a good start a precinct that has more than just one thing where you can easily spend a full day and still	more than just sport maybe forgive this thought just maybe Salamanca	says the limit we want anything and everything from filming movies to business events to community open	public space, as mentioned accessibility and amenities need a space that enables extended comfortable stays for quests longer quests are there the more opportunity	who's going to go to these businesses when there's nothing on at the stadium which will be more often than	this is a once in a generation opportunity I hope it is not wasted we need something that will cost a lot of money that delivers a huge advantage to Tasmanian tourism and brings the Hobart city area up to a new unthinkable level a stadium and football team is incredibly narrow sighted nobody flys to Paris to watch sport and not see the Eiffel tower for example when you think of tourism destinations the last thing on my

The outlay from Tasmania for this project is minimal and financially viable and does not have any affect on housing and health. The funds allocated from Federal Govt and the AFL will be lost and never to be offered again to our state if this stadium does not proceed. Bringing the state together Tasmania needs to stop hindering progress or change. It's the

Maybe the design could feature a heritage component linking it to Hobart history Ask David Walsh's architect TV ads nationally Have plenty of open area for the summer festivals etc that this will draw The multi purpose stadium will draw a variety of events There needs to be space for pop up stalls etc when events are on showcasing the Tasmanian products we are known for Our own timbers in constructions, produce and	Sport and Music Games, concerts Stadium is totally inappropriate, too large and a waste of tax dollars Australian and international artist, sports AFL and AFLW games, festivals such as Dark MOFO, sporting events such as rugby and soccer - NRL and A League - would give Hobart great exposure Music concerts would be great Music concerts and eateries AFL, Cricket, concerts, trade shows Exhibitions, multitude of top level sports, World class entertainers	kiddies with cancer, breast cancer fundraising infact any sort of fundraisering events live conferences from the likes of RIMPA, or what about conferences from John Kwik or some other big name hosts A conference centre could provide thousands of businesses the opportunity to utilise the space, including meetings, functions and training opportunities A conference centre does not need a stadium A very wide range There are endless opportunities- government and business conferences, political conferences, weddings, funerals, election coverage, media centres Any large corporate functions Trade events, National and international conferences Trade events, National and international conferences Trade events and a drawcard for conferences in the past. The stadium could possibly cater to a different market with some creative thinking	consider people with disabilities like those are unable to walk or see accessible entry to all parts of the stadium and building in the area a like - maybe a space outside the stadium where people unable to enter the footy or concerts or tennis big screens similar to that of Melbourne park (think that's the place I am thinking of) Green spaces that suit the design of the stadium accommodation and restaurants No stadium it cannot be justified parking food etc accesses to buses taxi close by Transport, parking, first aid, security, emergency services access Accessibility Outdoor display space, practice areas for sports	others big name companies to want to work in Tasmania Both Restaurants outside for before and after events, but with provision inside for during events both Theses are all Ok but stadium is not needed and unjustified outside Catering primarily inside, overall they could be both Both but mainly outside Both Outside great to visit before/after events and quality food and beverage inside during events Both Naturally inside for during the events, but around the perimeter works well for times when the events aren't on also	if it's done well, right from the beginning it has the potential to bring so much good into this state we desperately need to move forward and develop I love Tassie and wilderness I love our old buildings But that doesn't mean that we can't move forward and tempt more tourist into Tassie with other options of footy shopping concerts let's do this already. One more thing be open and honest with Tasmanian people if budgets blowout or things get a bit pearshaped tell us and why because if there is secrets you will loose the voters in droves. Yes Stadium Yes tell the AFL that they have no right to insist we provide them with a stadium at MAC point. They can play at an upgraded York Park. Lets build it. The multi purpose side of the development needs to be explained more so that people can see the potential for the stadium to be more than just an AFL venue. This needs to happen for our state to become a more enticing prospect. We have lost the vibrancy that other states have. I'm a fan of the design which was partially out on the water. This has a few advantages—the footprint would be partially on reclaimed land, the easterly outlook towards the bridge would be fantastic for the conference spaces, there could be space for boats and ferries to come alongside and tie up, and the design is really futuristic—something we can be proud of Trainik triat a striani percentage or in asmanians tract trias stadium is a no go option and that it is funding that could be spent on housing and the health system. However this is not the case from what myself and many other Tasmanians see. The outlay from Tasmanian for this project is minimal and financially viable and does not have any affect on housing and health. The funds allocated from Federal Govt and the AFL will be lost and never to be offered again to our state if this stadium does not proceed.

									will proceed - it's positive I fear many that are against the project will simply remark to the negative I'm not sure how they might answer some of these
				I think Tasmania already has a unique brand					question but I feel that any negative opinions could be discounted to some extent on the basis that this survey seems to be looking for ideas I'm only a layperson with limited knowledge and experience with concepts like a stadium I'm sure there are experts that
				Australia and worldwide Positive media coverage of the long term vision will help Also,			Numerous toilet facilites that are very conveniently		with concepts like a stagium. I'm sure there are experts that could provide a professional concept plan for this project. I would like to think that more weight is given to those experts.

Second Processing Company of the C	1546	06-Aug-23	8 Karlin		experience as possible That loses all sense of Tasmanian uniqueness Hobart waterfront architecture is a big variety bag - it can retain some of that chaoticness, but incorporating small and varied structures Have provision for other festivals etc to be held	need It's a huge expense, takes up a lot of space, and in actuality will not be used enough of the time to keep the area enlivened Even in a big city, stadium real estate is unused much of the time Concerts, any field sport be it football, soccer rugby	conferences will find it an attractive place to go Design it as a conference centre and much will be unused much of the time and disconnected from	ride system for people to catch public transport from		with conferences since COVID - not all are even going back to in person. Major performing arts organisations are making moves toward virtual reality distribution of their events. Sports will too. By 2029, business will not be as it is now. This project doesn't appear to have really taken future trends into account. No new stadium at Mac Point. We may end up with a white elephant. Stadiums I've seen with designs, ie on game day it's in Tassie colours, for Australian international game it's in gold etc. look at Allianz arena in Munich and other examples. For a recent example look at the eye in Las Vegas that recently opened. I'd love there to be really cosy lodge bars with Tasmanian whiskeys and oysters and other fine dining nearby. Also

Good pedestrian linkages to the waterfront and the domain	Definitely both, in the stadium you need food venues both high end and budget, corporate areas, private function rooms all overlooking the ground You need bars and merchandise shops Cafes, restaurants, accommodation, shops should also surround the stadium	The development of Maq Point is a project of major significance for Tasmania and needs to be developed as a world class facility that Tasmanians can be proud of for many years and generations to come. The impotance of making it world class and uniquely Tasmanian can not be understated and its important that politics do not undermine the process and that the project is properly funded and not restricted by budget limitations. Their needs to be a staged process for the development of the MAQ POINT precinct and funding sourced and allocated according to each stage such as what has occured with the living city project in Devonport. It will be important that the private sector has avenues to invest in the development ie hotel chains, restaurant chains etc to ensure their is a buy in from the industries that will surround/support the stadium precinct. Its a very exciting time for Tasmania and I and many others are very supportive of the work that is being done to develop a new multipurpose stadium at MAQ point, its a once in a lifetime opportunity so lets make it count!
